## Head of School Notes

Dear Student and Parents,

I wanted to remind everyone that today at 4pm, we will have the AGM. Due to the current situation, it is a virtual meeting. An email was sent out by the Board with an invitation to join a Google Meet session. We invite ALL members of the community to join this meeting. Join with Google Meet

Thank you to those parents who submitted their questions in advance. Of course there will be time for questions during the meeting.

On a completely different subject...unfortunately, the launch of the SpaceX rocket to the International Space Station had to be postponed due to bad weather. But did you know that you can practice docking your module onto the ISS? Here is a website that allows you to simulate this maneuver. Let's see who can succeed first. (In other words, are you faster than Mr. Anthony? ;-)

I wish everyone a great day.

## Design Task 3 – Engineering Challenge

Mrs Armitage is a very adventurous lady, but she has a **BIG** problem. Listen to her story and see if you can help her

My design challenge for you is to see if you can design and make a wind powered vehicle.

You could take it to the next level and power your vehicle with elastic bands
