

The International School of Zanzibar (ISZ) is proud to announce the opening of a new boarding program. ISZ is working together with CPS and the Fumba Town Community on this exciting new project. Starting in August of 2021, ISZ will welcome boarding students for Year 7 and older.

ISZ is the only accredited international school in Zanzibar. We have been serving the expatriate and local communities of Zanzibar since 1988. ISZ is also the only Cambridge International Education (CIE) testing center on the island, and we offer the world's #1 international education program, Cambridge IGCSE and A levels. Our graduates have been accepted to some of the top universities in Europe and the UK. ,

We are excited to expand our reach and invite students from all over East Africa to come live and study in beautiful Zanzibar. Zanzibar has direct flight and ferry connections to Dar, all major cities in Tanzania and many East African destinations. Boarders may return home for the weekend or stay on and take advantage of Zanzibar's many outdoor activities.

Our boarding school is something very special as we do not live on campus but are part of an exciting new development called Fumba Town Community. Fumba is located in the southeastern tip of the island about 20 minutes drive from ISZ, and this new town has been designed from scratch to the highest international standards. The feel of Fumba Town Community is like a small seaside resort.

Each boarding apartment has 2 bedrooms, a kitchen, bathroom, common room, and of course a high speed internet connection. There is enough room in each apartment for everyone to be him- or herself and have some alone time. The apartments are cleaned and maintained daily by our hosts. The security at Fumba Town Community is first rate with 24 hour guards and stringent access checks. The Boarding parent lives next door on the same premises and is available 24/7.

Students will enjoy the living situation in Fumba Town Community. There are several shops and places to eat. The kwetu kwenu kiosk serves delicious and nutritious breakfast, snacks, school lunch, and dinner. The ingredients we use are ecologically farmed. The kiosk is a meeting place for the community and greetings are exchanged with fellow boarders as well as with local community people on their way to work. Everyone knows everyone else. Everything is neat and clean and well maintained. There is even a clinic with a qualified doctor from Germany who can take care of all outpatient needs. A breeze comes off the ocean which is just a few meters away. Trees offer shade, and the local gardens invite you to play and explore. Children are free to safely roam the entire development area. Cars must drive at slow speeds. A real community where students can thrive.

We cordially invite you to come and join us in August 2021. For more information please contact [info@isz.co.tz](mailto:info@isz.co.tz) or call us at 0777 477 053.
